

**2020 WIKWEMIKONG Pike and Bass Classic  
DERBY RULES**

1. This is a virtual live release format and every boat must make every attempt to keep the fish alive. Measurements will be submitted online to either the Wikwemikong Tourism Facebook page, or the Pike & Bass Classic event page, or it can be emailed to [wikyangler@gmail.com](mailto:wikyangler@gmail.com). You will be provided with a password that must be displayed and/or stated in your video, and the fish must be live released/shown swimming away also (except for salmon/trout mystery fish entries).
2. Registration is \$60, and must be done so by EMT. Send your EMT to [wikyangler@gmail.com](mailto:wikyangler@gmail.com). A follow up email will be sent by our team to confirm that your registration has been received, and to also obtain information such as the names of the anglers/participants that you have paid for.
3. Registration is complete when payment is received. You may also send an email to [wikyangler@gmail.com](mailto:wikyangler@gmail.com), or message Wikwemikong Tourism on Facebook to confirm that your payment has been received.
4. Pike Category Prizes are determined by combined length and time of weigh in. In the event of a tie the time of submission will be the determining factor. The time at which your video is submitted is considered the time of weigh in. A **maximum of 2 pike per day** can be registered.
5. The Bass Category Prizes are determined by longest combined length and time of weigh in. In case of a tie the time of submission will be the determining factor with the earlier submission winning the corresponding prize. The time at which your video is submitted is considered the time of submission. A **maximum of 2 bass per person** can be registered.
6. You can measure the length of your fish using a standard measuring tape. It must clearly show the length of your fish in the video to determine the legitimacy of entry. Final decision is at the discretion of the tournament organizers.
7. Once you have submitted the measurements for your fish they are locked in as your catch for that day. There will be no switching out an entry for another one - i.e. you already caught and registered two bass but catch a bigger one later; you cannot submit that one and have it replace another one you already weighed in; they are locked in as your entrant for that day.
8. "Stressed Fish" are determined by the Tournament Officials as to their legitimacy as an entrant; however, "Stressed Fish" can be entered into the mystery fish division provided the participant is a paid entrant and the fish is **NOT of the pike or bass species.**

**Mystery Fish Division**

1. Registration for the Mystery Fish division is included with the purchase of your entry of \$60.00.
2. All species (excluding Pike and Bass) are eligible for the Mystery Fish Contest. Mystery Fish are the only fish that are allowed to be “stressed” at the time of weigh in – this is due to certain species (i.e. salmon, lake trout) residing in deep water and barotrauma occurs when being brought up from the depths. **Note that Muskellunge are only eligible if they meet the slot size as per fishing zone set out by the MNR guidelines as stated above – killing or keeping of these fish outside of the slot size is illegal, and they cannot be deemed as a Mystery Fish unless the slot size is met.**
3. **2 x \$500** Mystery fish prizes will be handed out – one will be determined by weight (single heaviest fish), and the other will be determined by Length (single longest fish) – ***the same fish cannot be entered for both categories***. In the case of a tie the determining factor will be time of weigh in. Derby Officials have the right to determine a fish ineligible if the fish shows obvious signs of trauma from being gill netted or other illegal means.
4. Fisherman will use their own scales for the single heaviest Fish; we understand that there will be some variance from scale-to-scale, but this is being done to minimize any contact to prevent any potential transmission of the COVID19 virus. The honour system is of utmost importance for this division.
5. Muskellunge entries for mystery fish must adhere to regulations as set out by the Ministry of Natural Resources and they are as follows:
  - Zone 10 - S-1; must be greater than 122 centimetres, and C-0
  - Zone 13 - S - 1; must be greater than 102 cm (40 in.)
  - Zone 14 - S - 1; must be greater than 137 cm (54 in.)
6. Walleye/Sauger entries for mystery fish must adhere to regulations as set out by the Ministry of Natural Resources and they are as follows:
  - Zone 10 - S-4 and C-2; not more than 1 greater than 46 cm
  - Zone 14 - S - 2 in one day, possession limit of 4; none between 41-56 cm (16.1-22 in.), not more than 1 greater than 56 cm (22 in.)
